**Intellicheck Mobilisa Receives US Air Force-Wide Authority to Operate (ATO) for Defense ID®
USAF Designation Follows Recently Secured Accreditations by US Army, Navy and Marine Corps
Certification Allows Company's Security Solution to be Used at Each of the Nation's US Air Force Bases**

Port Townsend, WA – December 29, 2009: Intellicheck Mobilisa, Inc. (NYSE Amex:IDN), a global leader in access control and wireless security systems, has received a US Air Force-wide Authority to Operate (ATO) for its Defense ID® product, an advanced access control system. This government designation follows ATOs the company has recently received with the US Army, Navy and Marine Corps.

“We believe the United States Air Force-wide ATO is a testament to the value and importance of our security system,” said Dr. Nelson Ludlow, CEO of Intellicheck Mobilisa. “It is especially rewarding to note that this is the fourth ATO we have received in nine months, following accreditations by the US Army, Navy and Marine Corps.” The Air Force-wide certification allows installations to access the benefits of the Defense ID system. The Air Force has recognized Defense ID as a solution for anti-terrorism, force protection, and access control. Intellicheck Mobilisa’s system screens individuals prior to arriving at a base, runs a “bad guy” check against most wanted lists, and identifies an individual as authorized to enter a base.

While Defense ID has been in use at several Air Force bases across the country, including Andrews Air Force Base and the Air Force Academy, the award of this system-wide certification now allows for procurement by all US Air Force bases nationwide.
