

# ID-Check®

## Product Introduction

Intellicheck Mobilisa's ID-Check® technology has revolutionized driver license applications. As the world leader in driver license scanning technology, our ID-Check software instantly reads and verifies the data encoded in driver licenses—all in under 1 second.

ID-Check is designed to support a variety of industries and is easily and seamlessly integrated into a variety of end-user applications. From instant credit applications to age verification, ID-Check can be implemented to streamline and secure virtually any system that requires an ID to be presented.

ID Check® allows for quick and easy deployment to instantly validate the authenticity of an ID, verify any applicable age restrictions, and auto-populate customer data-fields. Integrate ID-Check into your existing Point-of-Sale or Hospitality system; include ID-Check and streamline your customer loyalty card program; customize ID-Check to reduce check-cashing fraud and other forms of identity theft. The options are endless!

# System Overview

## Technology

Intellicheck Mobilisa is the recognized leader of driver license reading technology, with 12 patents and 11 patents pending.

## Product Features

ID-Check® is a custom solution that can be configured to meet the end-user's needs, from refund management tracking to velocity checking for fraud, POS integration, and more. Auto-populate form fields in under a second with a quick scan of a driver license.

## Benefits

Reduce labor costs of data entry; increase accuracy 100% with a driver license scan; data suggests customers are 12 times more likely to apply for store credit with ID-Check due to speed of application, privacy of data, and ease of use.
